- 6 **FERNANDO** (12/14/13 15:28:35) Ya mande lavar dos kilos de tetr, se ocuparon 2 kilos cerrados, en cuanto lleguen con ellos se los mando a cleto para que haga sus pruebas el. I already sent for two kilos of tetr to be washed, 2 full kilos were needed, as soon as they arrive with them I will send them to cleto so he can do his tests.
- 7 **FERNANDO** (12/14/13 13:16:32) Por otra parte el pollito sigue buscando lo del taxi y del 03 por haya. Pero mientras ya consiguio para salir de la capital de con el con 9 frijoles minimo y maximo 60. Seria en taxi de estadio a estadio. Solo esta esperando le pasen el dato del costo, ellos dicen que les cuenta frijol por frijol de salida. Pero anda viendo si ellos pagan haya y nosotros acá. Ya le encargue al Javi para cuadrar eso en ruta 2. Eso es por carga. Imaginese, me dice que se puede trabajar diario. Con eso tenemos para afianzarnos muy bien. La idea mia es traer no terminado y pagarle al socio su parte a precio de ruta 2 como si fuera terminado ligeramente abajo de precio, no se como vea ud. Y ya nosotros nos encargamos aca de todo. On the other hand pollito is still looking for the taxi's and the 03's over there. But meanwhile he already got [a way] to leave the capital with him 9 beans minimum and maximum 60. It would be by taxi from stadium to stadium. He's just waiting to be given the cost information, they say that they count bean by bean when departing. But he's looking to see if they pay over there and us here. I already tasked Javi with setting that up on route 2. That's per load. Go figure, they tell me work can be done daily. With that we have enough to establish ourselves very well. My idea is to bring [it] [un]finished and pay the associate his part at the route 2 price as if it was finished slightly below price, I don't know what you think. And then, we take care everything over here.
